- Java, php (+Zend MVC), Tea*, (x)HTML, CSS, JavaScript, GoPublish*, Barista*, Ant, Maven, SVN, AWS EC2

(*technology developed by the Disney Interactive Media Group)

Previously

- jsp, C#, C++, ASP, ActionScript 2.0/3.0, XSL, Microsoft Content Management Server, Drupal, MySQL, MSSQL, Active Directory, Apache, IIS, Tomcat, Perforce, CVS

PREVIOUS EXPERIENCE

Freelance Web Developer

HUGE - Los Angeles, CA (September 2009 - Present)

Helped introduce the Zend framework to HUGE and assisted the team in developing and architecting two large-scale applications in two months, successfully launching MasterCard's largest online marketing campaign ever.

- Short timeline required rapid learning of and prototyping with Amazon & Facebook APIs
- Worked on everything from CSS, to database design, to server configuration & administration

Senior Web Developer (Architecture Team)

Disney Interactive Media Group - Glendale, CA (October 2006 - September 2009)

Led two development teams: one responsible for oversight and development of Disneyland and Hong Kong Disneyland websites; the other responsible for developing a JavaScript framework used across dozens of websites built on various technology stacks. Evangelized front-end performance optimization as a member of the Architecture Team.

- Pioneered internal documentation and training presentations
- Collaborated extensively with globally dispersed teams
- Helped improve overall code quality by creating standards and defining metrics
- Consulted on projects requiring knowledge of PCI requirements and COPPA compliance
- Drastically improved website performance for US and internationally hosted websites
